14 August 2026

**To: All IT Students**

**RE: INVITATION TO PARTICIPATE IN THE RICHFIELD HACKATHON 2026**

Dear Students,

It is with great excitement that we invite you to be part of the Richfield Hackathon 2026, a national competition designed to challenge your creativity, sharpen your technical skills, and connect you directly with the world of industry. This is your opportunity to step beyond the classroom, work with your peers, and build something that could shape the future of graduate employability.

This year's theme, "Empowering Graduate Employability through AI and Digital Innovation," calls on you to design intelligent, AI-powered solutions that connect students, alumni, employers, and industry partners within secure digital ecosystem platforms that showcase graduate talent, strengthen professional networking, and open doors to real career opportunities.

The Hackathon will unfold in two thrilling stages. First, your campus will host its own qualifying round, where teams will compete for the chance to represent your campus. The top team from each campus will then advance to the National Hackathon, where you will showcase your solution to different campuses across the country

**Key Details**

| | |
|---|---|
| **Theme** | Empowering Graduate Employability through AI and Digital Innovation |
| **Campus Round** | 15 – 16 September 2026 |
| **National Hackathon** | 17 September 2026 |
| **Registration Deadline** | 21 August 2026 (via your Campus Manager) |
| **Team Size** | 5 students per team |
| **Teams per Campus** | Maximum of 5 |

This is more than a competition; it is a chance to build your professional network, gain visibility with industry partners, and demonstrate the real-world problem-solving skills employers are looking for.

Whether you are passionate about coding, design, strategy, or storytelling, there is a place for you on a team.

To register, please speak to the Hackathon Coordinator at your campus listed below or the Campus Manager and form a team of five students before the registration deadline of 21 August 2026. Spaces are limited, with a maximum of five teams per campus, so we encourage you to gather your team and register early.

| **Campus** | **Hackathon Coordinator** |
|---|---|
| Bryanston | Muuaz Noor |
| Centurian | Royal Goronga |
| Newtown | Mishi Makade |
| Polokwane | Morwakgadi Mamabolo |
| Musgrave | Thabiso Aphane |
| Cape Town | Ebeneezer Fatumo |
| Pretoria | Nkateko Nkuna |
| Umhlanga | Amishka Baruth |
| Distance Learning | Need Mujingwa, Lebaka Mofubetsoana, Sheldon Baloyi, Ontlametse Baloyi |

We look forward to seeing the ingenuity, energy, and passion that our students bring to this year's Hackathon. Come ready to innovate, collaborate, and compete and let's show what Richfield students can build together.

Should you have any questions, please do not hesitate to contact your Campus Manager or the Hackathon Coordinator.

Warm regards,

**Nancy Madiba**
